MORE JAILED IN ESTEVAN STRIKE AREA

Another Man Wounded in Recent Riot Dies—May Reopen Mines

SIXTEEN MEN ARE NOW IN CUSTODY

ESTEVAN, Sask., Oct. 2 (CP).—As three additional men were arrested today charged with rioting, and one more man died from bullet wounds, the possibility of a settlement of the strike, which has raged for nearly three weeks in the Estevan coalfields, gave a little hope to this troubled community.

Negotiations are proceeding to-night which may mean the resumption of work in the coal mines Monday.

Tony Skelchick, William Cunah and James McLean were arrested today when they appeared in court. They are alleged to have taken part in the riot Tuesday when strikers from the mining hamlets of Beinfalt and Taylortown, invading Estevan, were refused permission to parade through the town and clashed with the police.

REMAIND FOR WEEK

The three men appeared in court and were remanded in custody for a week. Tonight they were taken to jail at Regina. McLean's mother fainted on the station platform as the train pulled out.

The death of Pete Markunt in Weyburn Hospital today brought the death toll of the riot to three. At the Estevan Hospital it was stated that two men, who had not been expected to recover, were doing remarkably well, and showed distinct improvement.

SEEKING BAIL

The men in custody now number sixteen. Efforts of Solomon Greenberg, Winnipeg lawyer, to arrange the release of the accused on bail, have not yet met with success. He plans to go to Regina soon to press for bail before a judge of the Court of King's Bench.

With the reopening of negotiations between the strikers and the mine operators there is a growing feeling of relief. The tension which has prevailed for the past four or five days is abating. On the other hand if the negotiations do not prove successful there is fear of further trouble.

NO SYMPATHY STRIKE FOR ALBERTA MINERS

DRUMHELLER, Oct. 2 (CP).—Wayne coal miners turned deaf ears to pleas that they go on strike in sympathy with the striking miners at Estevan, Sask., it was learned today. Union officials, it was reported, attempted to have the men declare a strike, but the miners apparently refused to repeat their actions of two years ago, when orders that would have sent to the mines were turned over to Drumheller and East Coulee fields.

Says Conservatives Of Quebec Plan to Contest Lost Seats

Montreal Newspaper Article Declares Efforts Will Be Made in Court to Unseat Seventy-Nine Liberals—Action Will Be Costly

MONTREAL, Oct. 3 (CP).—The Montreal Gazette today publishes on its city news pages an article in part as follows:

"Political and parliamentary history is in the making when today the provincial Conservative party, presumably with the consent of at least some sections of the Federal Conservative forces, will appeal to the courts to annul the decision of the Quebec electorate on the ground that such decision was obtained through corruption."

"The decision to protest all of the seventy-nine seats in the Legislature, has been taken by Mayor Camille Houde and the other defeated candidates. There were caucuses in both Montreal district and Quebec district defeated candidates, and since money has become available, at least for preliminary proceedings, the contests will be proceeded with, despite the wish of the elected Conservative members."

"HUGE AMOUNT INVOLVED"
Not since Confederation in 1867 has such a thing been known. The amount of money involved goes into large figures, since a deposit of \$10,000 in each contestation is required. There are 111 members of the Legislature, and the expenses of witnesses, so it may be taken for granted that the contestation involves an expenditure of a quarter of a million dollars if the actions are to be pushed forward to a conclusion.

"What lies behind the actions from the legal point of view is not known since it is only when the actions are joined in the months to come that details of the alleged corruption will be forthcoming."

OTHER TESTS PROMISED
The Liberal party will contest ten of the eleven seats won by the Conservatives in the elections, which were held August 24, the paper adds.

Contestations will be filed today in the seats where results were posted in the official Quebec Gazette under date of September 3. This means twenty-two Conservatives against Liberals today and two against Conservatives, the remainder to follow shortly.

Innkeepers Of England Cheered Up

LONDON, Oct. 2.—Economy, as Britain is beginning to practice it, is naturally producing some contradictory results. For example, there is a ban on Continental holiday-making, which causes the English hotelkeeper to brighten at the reflection he will have increased patronage to help him with his heavier income tax.

On the other hand, large reductions in staffs are being instituted in the tourist agencies which organize Continental travel parties. One firm employing a thousand persons has reduced its staff by 50 per cent.

British railways serving the Continental routes have raised the fares to the points of departure. The holiday makers who used to go to Nice will perhaps combine pleasure with patriotism by taking himself to Blackpool.

TONY SKELCHICK, WILLIAM CUNAH and JAMES MCLEAN were arrested today when they appeared in court. They are alleged to have taken part in the riot Tuesday when strikers from the mining hamlets of Beinfalt and Taylortown, invading Estevan, were refused permission to parade through the town and clashed with the police.

Subscriptions to over 60 per cent of the capital stock of the company have been received, and steps to complete the organization have been taken.

Subscribers to the stock of the company include the Canadian Pacific Railway, Canadian National Railway, all the banks, the principal life insurance, trust and mortgage companies, and many private corporations.

Two additional directors, both from Western Canada, remain to be selected.

Person, surgeon-general of the United States Army; and Dr. W. Harvey-Smith, of Winnipeg, former president of the British and Canadian Medical Associations.

Rescues Flying Couple

QUICK action of sailors aboard the British aircraft carrier, H.M.S. Hermes (shown above), saved the lives of Colonel and Mrs. C. A. Lindbergh and Dr. P. Z. King, Chinese relief worker, when the trio was thrown into the Yangtze River at Hankow as the Lindbergh plane was about to take off. After spending the night on the Hermes the flyers were leaving on a survey flight when their plane capsized in taking off. The machine was badly damaged.

World Shipments Of Wheat Largest In Trade History

Movements Abnormally Heavy Since Start of Present Crop Year—Canada Maintains Position Despite Increase in Russian Exports—Reduction of Carryover to Normal Predicted

OTTAWA, Oct. 2 (CP).—World wheat shipments for the first eight weeks of the present crop year were the largest in the history of the grain trade, the Department of Trade and Commerce reported today.

Despite depressed economic conditions, drastic restrictions against grain imports into European countries, and other unfavorable factors, wheat movements were abnormally heavy.

In commenting on the Canadian situation, the department's bulletin said it "remains very strong by virtue of the small volume of the 1931 crop. If Canada exports 200,000,000 bushels this year, the entire 1931 surplus will be sold and the carryover reduced to normal. This involves monthly exports of approximately 17,000,000 bushels.

"August exports amounted to 14,500,000 bushels, and export clearances in September indicated a higher figure for that month—possibly 17,000,000 or 18,000,000 bushels. Thus, in the face of Russian competition in the past two months, Canada has practically maintained her export quota."

Figures released by the Trade and Commerce Department showed Russian exports of wheat increased from 11.4 per cent of the world movement last year to 30.4 per cent, which more than counterbalanced the drop in North American sales.

SPANISH WOMEN WIN SUFFRAGE

Extension of Franchise Accorded in New Constitution of Republic

By RALPH E. FORTE
(Copyright, 1931, by The Chicago Daily News Service)

MADRID, Oct. 2.—In Spain, at least, woman ceased being the "man farthest down in Europe" yesterday, when the constituent Cortes after several hours of fervent debate approved Article 34 of the constitutional project regarding woman suffrage. Waving flags, the women of the Socialist minority, secured a win in the House when the bill was made law by 160 votes against 21.

Virtually all the Government ministers voted in favor of woman suffrage, with the exception of Minister of Communications Martinez Barrio and Minister of Finance Indalecio Prieto, who thus disagreed with his party on the issue.

Those favoring the concession were the Catalan minority, the Basque-Navarrese and the Agrarians.

Latest statistics concerning the population of Spain date back eleven years, when the number of women exceeded that of men by almost 700,000. At that time there were approximately 10,000,000 men. At present women outnumber men in many of the larger cities throughout the country. There are about 8,000,000 male voters in Spain today.

POUND TO BE STABILIZED SAYS EXPERT

Parity, as Seen by British Economist, Would Improve Trade Balance

FORESEES DUMPING IN FRANCE AND STATES

By NEALEY FANSON
LONDON, Oct. 2 (CDN).—The United States and France will remain on the gold standard, The British pound sterling will probably be stabilized between \$35 and \$44 to the pound.

This is the judgment of L. L. B. Angas, British financial expert, in a letter to The London Financial Times, which is playing it as a feature news story today.

With the United States holding \$5,000,000,000 in gold and France \$2,225,000,000, Mr. Angas states that there would be no object in abandoning the gold standard, even if other countries should do so as gold would become almost worthless and exchange would fluctuate worse than ever.

DISCOUNT WILL REMAIN
The discount on the pound sterling, in terms of dollars, he says, would, nevertheless, remain owing to international balance payments which result not only from gold debts, but also from differences of internal price levels which govern the commodity trade and give rise to new debts.

The United States, France and Holland, says this British financial expert, holding huge masses of gold, will induce other countries, which recently have been forced off the gold standard, to return to it as soon as possible, even at a devalued parity. Parity at \$35 to \$44 for England, he estimates, would be somewhat better than the correct purchasing power, parity therefore would place a net bonus on exports and a small net check on imports. This will lead to the devalued countries obtaining an export surplus—and a resultant influx of gold from France and the United States. Gold currency of the present "off the gold" countries will thus be strengthened and better distribution of gold will enable it to remain a serviceable currency.

DUMPING IS INEVITABLE
Such a policy, this British economist says, will lead to dumping in France and the United States. But, he says, such dumping is inevitable in any case, for if the United States does not help the off countries back to the gold standard, dumping will continue as a result of the depreciated price of gold.

The price of gold, states Mr. Angas, will remain permanently at its present level in terms of francs and dollars—and the sterling price will fluctuate until it is eventually fixed in terms of devalued pounds.

WON GOOD WILL
He never succeeded, but his five attempts brought him international fame and eventually a golden goal will cup, presented to him last year as a token from the United States to "the gamest loser."

Shoots Son for Prairie Chicken

WINNIPEG, Oct. 2 (CP).—Mike Adamchuk, Minotons, Man., shot and killed his four-year-old son Walter today in mistake for a prairie chicken. Adamchuk, afraid the lives of his two sons would be endangered while he hunted a chicken near his farm, sent Walter and his older brother home. But the children joined in the hunt, unknown to their father, and Walter was killed, instantly, when his father fired.

GLASGOW, Oct. 2 (AP).—Central Glasgow was in wild disorder tonight as crowds of unemployed demonstrators smashed and looted shop windows. The outbreak followed serious rioting last night, with frequent clashes between demonstrators and police, which lasted until this morning.

Seaham Labor Rejects Premier MacDonald as Election Talk Revives

Constituency Will Seek New Candidate Is Statement After Prime Minister Explains Stand—Political Forces Are Lining Up for Early and Spirited Contest

OTTAWA, Oct. 2 (CP).—"Canada is abundantly able to bear her debts, to pay the cost and meet her obligations if the country is administered with reasonable wisdom," declared Hon. H. H. Stevens, Minister of Trade and Commerce, addressing a service club here today.

Mr. Stevens urged those who could afford to do so to spend in a normal way, claiming that such expenditure would go a long way towards relieving unemployment throughout the Dominion.

At the end of an hour's talk, he declared there had been no desertion of his Socialist principles, that he is as good a Socialist as he ever was. But after the meeting, Secretary Coxon, of the Seaham Harbor executive, issued a brief statement that "the position of the party is that it proceeds with the previous decision to secure another candidate."

It was understood the Prime Minister intends to examine the situation carefully before deciding whether or not he will run as a candidate for Seaham Harbor in the next election and that it will be some days before he makes a decision.

MORE ELECTION TALK
By EDWARD PRICE BELL
(Copyright, 1931, by The Chicago Daily News Service)

LONDON, Oct. 2 (CDN).—In the great negotiatory party shell-game now diverting and to some extent trying the patience of the British public, the pea today is once more under the early election shell. Apparently there will be an immediate election, with a clear revelation of the mind of the country, by the end of this month. It is even yet not certain, but it seems practically so. From the first days of the pending uncertainty, as a matter of fact, it has been hard to see how an early election could be avoided. The National Government, so far as a complete scheme of economic and financial reconstruction was concerned, stood on shaky ground. It did not know itself, let alone the people. It lacked both internal cohesion and external authority. It was partially, if not entirely, paralyzed.

Escape from that paralysis has been evolving gradually, but only through plans for taking the verdict of the nation. Prime Minister MacDonald has been ceaselessly active in his familiar role of persuader—a role peculiarly his own, both at home and abroad. He has been using all his power to persuade the enemies of the pound, the enemies of the pound, the enemies of the pound. He has been using all his power to persuade the enemies of the pound, the enemies of the pound, the enemies of the pound.

DIVERGENT VIEWS
Arthur Henderson and his followers, of course, deny that they are enemies of the pound. They recent Mr. MacDonald's thesis that loyalty to him and his political arrangements is synonymous with loyalty to the State. They consider their own conception of policy the only patriotic one. But neither Conservatives nor Liberals will look at that view and many Socialists also reject it. The latter believe in Mr. MacDonald—in his patriotism for one thing, and in his sagacity and courage for another. They will follow him whithersoever he leads. And it appears equally sure that his Conservative and Liberal supporters will hold up his hands valiantly until the end.

Hindenburg Celebrates Natal Day

BERLIN, Oct. 2 (AP).—Paul Ludwig Hans von Hindenburg, who was first in war and first in peace, was eighty-four years old today and the Fatherland rejoiced. Thirteen years ago, on this very date, he saw the hitherto irrepressible Hindenburg line waver and collapse under the united assaults of the Allied forces under Marshal Foch. Today, as President of the first German Republic, he is once more the field marshal leading the nation in a peace-time war against the onslaughts of economic depression and political disintegration.

GAS POCKET FATAL
PARK CITY, Utah, Oct. 2 (AP).—Edward Eberle, fifty-one, was killed, and nine other miners escaped when they were caught in a gas pocket of the Silver King Coal mine here today.

The ten men were lowered into the mine and found themselves in a gas pocket. They signaled for the hoist and a rescue crew removed them.

ADVERSE WINDS DELAY AIRMEN
Pangborn and Herndon Are Forced to Postpone Start of Ocean Flight

SAMUSHIRO, Japan, Oct. 2 (AP).—Hugh Herndon and Clyde Pangborn, American aviators, postponed the start of their projected nonstop flight to the United States today because adverse winds made it impossible to take off with the necessary heavy load of fuel.

The flyers prepared to take off shortly after daylight. They had entered their monoplane and started the motor. It sputtered a few times and Herndon and Pangborn climbed out and worked furiously to get it in shape for a take-off under apparently excellent weather conditions.

After more than two hours effort the motor was repaired, but by that time a wind had suddenly arisen, blowing across the mile-long runway from the beach here. The flyers decided it would be impossible to get their plane in the air with its load of 9,000 pounds.

NAUTILUS MUST SINK
SOUTHAMPTON, England, Oct. 2 (AP).—Sir Hubert Wilkins sailed today for New York. He is aboard the submarine Nautilus, in which he is towed under the polar ice, would be crushed to sea out of the port of Berger and sunk after the scientific apparatus used by the expedition is removed.

SEE LARGE GAIN IN GOLD OUTPUT
Production This Year in Canada Expected to Exceed \$33,000,000—In Second Place

TORONTO, Oct. 2 (CP).—Prediction that Canada will produce more than \$50,000,000 worth of gold during 1931, Ontario alone supplying roundly \$41,000,000 worth of the yellow metal, was made today by officials of the Ontario Department of Mines Statistical Branch.

The statistician's prophecy was made in connection with a report from Washington, that mineralogists there predicted that the Dominion would soon surpass the United States as a gold producer, and rank second only to South Africa in that respect.

According to figures of the Statistical Branch, the Dominion won a valuation of \$43,500,000, while that of the United States was placed at \$42,800,000.

DECLINES NEW POST
Well-informed persons are predicting a new regime with a triumvirate at the top and Canadian leaders taking important roles.

Dr. Alfred See, Chinese Minister to London, has declined to accept the post of Foreign Minister. It was learned in authoritative quarters today, and will remain at Geneva to urge the settlement of the Sino-Japanese conflict by the League Council.

Address by Dr. Lewis Smith on Island Fishing Spurs Audience to Organize

"It doesn't take an expert to shoot fish," Vancouver Island is in a sorry muddle and it is time that some one should shoot 'fire' so that the house can be saved." Thus said Dr. Lewis Smith, of London, Eng., speaker of Vancouver Island fishing before a gathering of anglers in the Chamber of Commerce auditorium last night.

Following a list of tentative recommendations given by Dr. Smith the meeting appointed a committee to make plans for the organizing of a Vancouver Island anglers' association.

British Premier on Way to House

PREMIER Ramsay MacDonald (centre), followed by his daughter, Sheila MacDonald, passing through the new Nationalist Government.

formation of district associations which would comprise delegates from each anglers' club; more co-operation of authorities with the anglers; more provincial influence and less Federal control; increased local knowledge conditions so that hatcheries, stocking and trout nurseries would be established on the right rivers; a more intensive educational campaign through the columns of the newspapers and an universal licence system.

As a result of these suggestions, a movement was immediately started to form an anglers' association. The following members were appointed to the organizing committee: Major R. G. Monteith, A. G. Boulton, H. D. Patterson, Capt. W. E. Tapley and Dr. W. B. Almers.

GAMEST LOSER CROSSES LINE

Continued from Page 1

His last attempt was in 1930, when his Shamrock V was defeated off Newport, R.I., by the United States defender, Enterprise, entry of a syndicate headed by Harold S. Vanderbilt.

Sir Thomas Lipton was born May 10, 1851, at Glasgow of Irish parents. After a brief schooling he made his way to New York as a stowaway, and after a hard struggle earned enough to pay his stowage passage back to Glasgow. He persuaded his parents to open a small provision store. He advertised boldly and soon made the name of Lipton known through Glasgow.

GROWING RICH

After a few years he had a whole string of shops and was growing rich. He entered the London field, then Liverpool and Manchester, and at the height of his business career controlled more than 600 stores in England, America, and other parts of the world.

In 1899 he converted his various enterprises into a huge limited liability company. His fortune later was estimated at \$50,000,000.

FRIEND OF KING

Lipton was knighted in 1897. In 1901 he was created a Knight Commander of the Victorian Order, and a year later was made a baronet. He was a personal friend of the late King Edward VII.

Sir Thomas Lipton never married, and under English law his great estate probably will go to distant relatives.

CHURCHILL'S COUNSEL

Winston Churchill rides picturesquely on to the jousting field today. He is out characteristically as a "two beller." He tells Great Britain's only living member of premier rank—three of them, Mr. MacDonald, Mr. Baldwin and Mr. Lloyd George—to meet at once and wipe away every difference which obstructs the national uprising against Socialism. He spurs Mr. MacDonald to the front.

Major K. B. Spurgin, in the path of heroism, falls to the ground, though he may excite little more than a national indignation smile.

SEEKS AID FOR BRIDLE PATHS

Victoria Real Estate Board Will Assist in Fostering Horseback Riding

Bridle paths about the city will be urged upon the authorities as a means for the expenditure of unemployment relief funds. The matter was put before the Real Estate Board yesterday, at the luncheon held in Spencer's dining-room, by Major K. B. Spurgin, representing the riding club of the city, and R. H. Ker, who, although not a member of that club, was impressed with the advantage that was to be gained from having facilities for horseback riding.

The board endorsed the idea and appointed Mr. Ker as chairman of a committee which will include two others from the board, to be named by Mr. Ker. This committee will join with another similar body to be named by the Chamber of Commerce, which will assist the riding club in its efforts to interest the authorities in the obtaining of the money needed.

Major Spurgin said that only about \$2,000 or \$2,500 would be needed to make a start along the lines he suggested. He outlined three routes which might be used with little expense. This would involve work only. Aid had been assured by Oak Bay in case other municipalities joined, and Hon. S. I. Howe had promised to assist, he stated.

F. B. Pemberton was of the opinion that the matter should have come before the beautification committee. The suggestion was made that the committee might take up the matter with that body.

REV. J. C. SWITZER IN NEW CHARGE

New Pastor of Centennial United Church Is Inducted—Message From Rev. G. C. F. Pringle

Induction according to the rites of the United Church, which took place last night at the Centennial Church, gave official recognition to Rev. J. C. Switzer, B.A., as pastor of the congregation. The service was performed by Rev. James Hood, former chairman of the Presbytery of Victoria, assisted by Rev. W. R. Brown and Rev. Hugh Nixon.

Rev. Dr. J. K. Unsworth and Rev. E. F. Church gave the addresses to the minister and the congregation, respectively, while Rev. Thomas Keyworth, of Sidney, introduced the minister to the presbytery.

ADDRESS TO MINISTER

Having expressed his gratefulness for having the opportunity to make the address to the minister, Dr. Unsworth told of the opportunities for younger ministers to preach the Gospel. In his address he quoted the recent words of Premier R. B. Bennett, stating that the Grace of God was the only thing that will save civilization at the present time.

Mr. Church referred to the service of the evening as being a great benefit to the church and ministry. He also dealt with the old Methodist manner of holding a social evening on such a night when a new pastor was being inducted. This was not appropriate enough, he continued. The new method impressed one considerably more with the importance of the ceremony.

During the evening a telegram from Rev. George C. F. Pringle, former pastor of the church, was received expressing his good wishes to the new pastor and wishing the congregation Godspeed. He is now convalescing at the hospital at Tranquille, B.C.

TO APPEAL ON STREETS TODAY

Y.M.C.A. Apple Day Taggers Ask Full Assistance in Drive for Funds

More than 250 workers will commence at 9 o'clock this morning and cover the entire city in an effort to better the financial condition of the Victoria Y.M.C.A. by offering an apple in place of a tag for any donation that citizens will give them.

Plans for the campaign were outlined to the youngsters and men at a dinner meeting last night, when members of the committee in charge told of the manner in which the drive will be carried out.

The city and district has been divided into thirty-one sections which will be canvassed by the youngsters, supervised by a leader.

URGENT NEED

Walter S. Maguire, general secretary of the association, told the boys of the urgent need of funds to continue for the next year and explained that they could assist the organization in "a great way" by doing their utmost during the tagging today. Harry Dawson, another member of the committee, also asked the co-operation of the youngsters in the move. Instructions as to how they should approach a prospect were given by Walter Tuck and Professor E. S. Farr.

Upon asking the boys if they were behind the Y.M.C.A., Mr. Dawson was greeted with shouts of "Yes" from the assembled boys, who have shown more enthusiasm over the campaign than any other move taken by the association.

NEW MEMBERS

According to Mr. Maguire, the Y.M.C.A. has acquired eighteen new members since last week as a result of the publicity given Apple Day by the press. Enthusiasm over the movement has urged these youngsters to apply for membership. Of these eighteen, ten made their applications on Thursday.

An urgent appeal is being made by the association today and, from the public-spirited manner in which citizens have thus far received the plan, only success has been anticipated and everyone throughout the whole city is asked to remember the Y.M.C.A. Apple Day.

WATCHING MENTAL DEVELOPMENT

It is certainly gratifying to see that the mental development of youngsters is now so carefully watched as is the physical. Every parent is naturally anxious that the youngster should grow strong and keep free from sickness, usually letting the mental development look after itself.

Generally speaking this is very wise, because if the parents and grandparents are normal individuals, the youngster is likely to be normal mentally also. It would therefore be unwise to be unduly concerned about the average youngster from the mental standpoint.

However, there are little points to watch, and remember that when they are what might be called danger signals in the behavior of the youngster. They come under two heads. The first includes those indicating a defect in the higher judgment, such as inability to concentrate, forgetfulness, inability to make decisions. In this same class may be mentioned dream states, castle building, unreal imaginations.

The second class is where the emotional state is affected, where there is a strong impulsiveness, or great depression.

Now there is not usually much tendency toward insanity during the first ten years of life, but in the second ten years, when the boy is between fourteen to sixteen and the girl thirteen to fifteen, when they are emerging into manhood and womanhood, that the young people should be watched. There is so much change, mental and physical, going on at this time, the development is so rapid, and so much strain of the educational and the social life, that some youngsters just can't adjust themselves to their surroundings. Statistics show that there is a sharp rise in the admissions to mental hospitals at this time.

What is the best way to have the boy and girl adjust themselves to life? See that they play games, engage

LIFE OF CHILD TAKEN BY FIRE

No Chance to Save Baby as Flames Destroy Indian Home

ALBANY, Oct. 2.—Fire, which demolished the home of Mr. and Mrs. Edward Joe, Indians, here, tonight, took the life of their six-month-old baby, in bed in the house. Mrs. Joe had gone to get water from the stream about fifty yards away, and on turning round to return, saw the house in flames. The combined efforts of herself and a passerby were futile against the flames, which quickly enveloped the building and made rescue of the baby impossible. Its charred remains were found after the engines had arrived, summoned too late to do more than extinguish the smoldering ruins of the home.

TWO GIVEN TEN YEARS FOR CALGARY ROBBERY

CALGARY, Oct. 2 (CP).—Edward Barna, alias Eddie Burns, aged twenty-six, and Harry Walters, aged twenty-two, were each sentenced to ten years in Prince Albert penitentiary by Mr. Justice Ewing at the criminal assizes today. The two men were found guilty of robbing A. Laminan, taxi driver, of his car, watch and chain and \$5 in cash on August 20. Harry Gagnon, companion of the two prisoners, was killed in a gun fight with provincial police as the officers pursued the fleeing trio. It was divulged at the trial of Barna and Walters that Gagnon was the man who wielded the gun when they held up and robbed the taxi driver, who was bound with wire by the robbers but escaped and notified police.

UNEMPLOYMENT IS DISCUSSED

President of American Federation of Labor Voices His Suggestions

VANCOUVER, Oct. 2 (CP).—Alleviation of a condition which allows a country of great wealth to contain millions of unemployed was discussed by William Green, president of the American Federation of Labor, at the concluding session of the Metal Trades Department of the Federation, here today. All officers were re-elected at this session.

A. B. Swales, fraternal delegate from the British Trades Union Congress, also spoke.

Mr. Green was critical of a system which permitted a few to accumulate wealth while millions faced starvation in a land of plenty. Unless that few which accumulated this wealth could find some means of maintaining employment throughout the country, he declared this wealth ought to be redistributed to the country in the form of increased taxation. He suggested increasing the inheritance tax, the income tax and the corporate profits tax as a means to this end.

ECONOMICALLY SOUND
Experience in the United Kingdom had shown that resistance to wages reduction was economically sound, Mr. Swales stated. While suffering from continued strain of unemployment, the Trades Union movement in the United Kingdom was holding up well, he continued, and offering as much resistance as possible to reductions in wages. All recommendations introduced to the conference in the report of officers received endorsement as well as a number of resolutions. Outstanding in these recommendations were subjects dealing with age limit of workers; the depression; unemployment and wages.

Failure of employers to maintain economically sound wages after 1921 was held as the direct result of the present depression and unemployment. Wages were felt to be out of proportion to the annual volume of wealth being created by industry, according to the report.

OFFICERS RE-ELECTED

Officers re-elected today were: John P. Frey, secretary-treasurer, Washington, D.C.; J. A. Franklin, first vice-president, Kansas City; John Coefield, second vice-president, Washington; J. J. Hynes, third vice-president, Washington; W. W. Britton, fourth vice-president, Cincinnati; Roy Horn, fifth vice-president, Washington; James Wilson, sixth vice-president, Cincinnati; James O'Connell, Washington, the president, who was absent owing to illness, was re-elected as officer at the opening session of the conference on Wednesday. Mr. Franklin presided over the sessions.

AUTO DRIVER IS HELD FOR TRIAL

Frederick A. Nickells Committed to Higher Court by Magistrate After Preliminary Hearing

Frederick A. Nickells, sixty-two-year-old driver of the automobile that struck and fatally injured Miss Grace Scott on the night of September 19, at the intersection of Quadra and Fisgard Streets, was committed to trial on a charge of manslaughter by Police Magistrate Jay in the city police court yesterday morning.

H. G. S. Heisterman, counsel for Mr. Nickells, informed the court he would reserve defence. In giving his decision, the police magistrate said: "I have carefully considered the evidence in this case and have come to the conclusion that there is a case for the defence to meet. There is evidence that the accused was driving at a speed exceeding twenty miles an hour. Under the Motor Vehicles Act, anyone driving through the city at twenty miles an hour is prima facie evidence he was driving to the common danger."

"It is a matter of comment that the evidence does not show that the accused reduced the speed of his car when approaching an intersection. Having considered that aspect of the case I think it is a matter for a jury to decide whether or not there was culpability on the part of the driver of the car. I think there is a case to be tried by a jury. The accused is committed for trial."

Mr. Heisterman—Any evidence that we might give would not likely alter your decision, and we will reserve defence.

The train backed to the crossing, one mile west of here, where the crash occurred, and took the victims into the town. Mrs. Bennett died an hour later without regaining consciousness.

SALES FOR AMERICA

TOULON, France, Oct. 2 (AP).—Marshall Petain, aboard the cruiser Duquesne today on his way to Yokohama, Va., to attend its sesqui-centennial celebrations.

Just Roamin' Around

As our train pulled out of Ladysmith, I leaned out of the window to take a last look at the lovely little gardens, where are gay flowers abloom, maple trees autumn tinted, and roses aglow with their scarlet berries; also I ran my weather eye over the hills and the very pretty harbor and that rocky strip of treed peninsula, where Rover and I are determined to camp, when, or if, our ship ever comes in.

Then the bore reached itself to me, and Rover seemed away to gather more about the widow and her daughter, whose hair is turning very grey; it's very, very sad!

The bore, got started on unemployment again. He seems to think (if he ever does think, which I doubt), that the Government and the social service bodies, who are endeavoring to find work, to find the cash to pay for the work, and give the unemployed something to live on till times really do improve, are not doing the right thing to pay the unemployed man less than he could, or might, earn when times are good.

"Gosh! I was early in life taught that half a loaf is better than no loaf, and I have learnt in the intervening years, and they are many, that even a quarter of a loaf is better than loafing—without any loaf at all!"

THIS FOLLY!

Shakespeare, whose knowledge of life, of men and of things in general, was most deep and profound, and correct, said: "What fools these mortals be!" That estimate of human nature needs no alteration. Having considered that aspect of a man will quibble and argue and lay idle a few more months, maybe many more months than that, too, that because the wage offered to him does not mesh with his wage-earning capacity of some years ago. "Tis folly! It is ever folly to look at a gift horse in the mouth, and work of any kind is a gift, these days!"

I know nothing of mathematics, per se, but I must confess I think, and know, that 50 per cent. is perfectly preferable to being a person without the fifty.

Rover, my pal, is always up to the scratch of a morning early. By the time I had gone a few miles past Ladysmith, and was nearing historic Nainaimo, he became scratchier, if you know what I mean; brighter, cheerier, more lucid, almost brilliant. He came to me, where I sat listening to the bore's insane reasonings, and without any slightest hesitation, remarked:

"The Colonist says, Master, that the new town-planning scheme for Rome, approved by Signor Mussolini, will take fifteen years to complete. It looks to me as if, once again, Rome isn't going to be built in a day! Maybe our Victoria beautification plan, which it has taken the last twenty-five years, or more, to decide upon, will also prove that Victoria cannot be beautified in a day!"

"But, Rover, when it is at last upon us, it will prove a most wonderful program of improvement ahead, it means that there will soon be less and less unemployment and more and more content and satisfaction and, therefore, happiness. Victoria will at last come into her own, as the most beautiful, most happy, most free from calamity-hoovers community in all Canada!"

"Oh! let it be soon, say 'I!' shouted Rover."

YOUNG ARTIST GIVEN OVATION

Miss Helen Ockenden Has Enthusiastic Reception at Shrine Auditorium

One of the most promising young artists ever heard on the concert platform here bade temporary farewell to Victoria last evening when Helen Ockenden, sixteen-year-old product of a local studio, gave a recital at the Shrine Auditorium just on the eve of her departure for Toronto to continue her piano studies at the Conservatory of Music there.

Keen musical intelligence quite out of the ordinary, an already admirably developed technique, and all the natural attributes which are required by the musician who intends to perform in public, are among the more obvious possessions of this accomplished young musician. In a programme of most exacting character, made up of compositions by such masters as Beethoven, Bach, Brahms, Chopin, Liszt and Grieg, she displayed extraordinary command of her material and a stage deportment, poise and self-possession worthy of an artist debutante several years older.

While there is ample need for the refining and polishing process, as would be naturally expected, the fundamental character of her work is exceptionally interesting, showing depth, strength, orderliness, nice balance, yet withal sufficiency of temperament to protect it from falling into rigid academic lines. Very few students of sixteen have attained such maturity of style or have such powers of absorption as this young girl and, given the right conditions, she could make her mark even at a time when rivalry in the musical world is keen.

THE PROGRAMME

The programme opened with the Beethoven "Moonlight Sonata"—rather wisely, as this beautiful composition requires lowered lights and an undisturbed atmosphere such as it is impossible to expect at the beginning of a recital. One missed in this the free and ample tone which she subsequently demonstrated she could command, although there was a well-sustained metrical grace and pensiveness of mood. The left hand work was conspicuously good.

Among her subsequent numbers, three were quite outstanding, viz., "Liebestraum," by Liszt, a remarkable performance for so young a pianist, showing melodic line, continuity of idea, perspective and fine execution; the Chopin Scherzo, which disclosed again extraordinary grasp of the pianist, who already has command of brilliant and big tone. There was a tendency to hurry in certain passages of this, but otherwise it was a strikingly fine thing.

Other numbers on the programme were the Bach Prelude and Fugue No. 18; the Chopin Etude, No. 3; Debussy's "Reflets dans l'eau," where quite an atmosphere was achieved and a good liquid tone developed; and the encore number, Grieg's "Lento," which was charmingly played. Through all these one had the feeling of listening to a much older player's tone, style, interpretation and execution being so advanced.

OTHER ARTISTS

Assisting on the programme were Florence Gunn, dramatic soprano, and Gilbert Margison, violinist. Miss Gunn has a sure technique and is obviously an experienced artist. Her interpretations had authority, finesse of phrasing, and other points in vocal art, and in her four numbers she gave an interesting series of compositions: Verdi's "Ritorno al Valencino" and (a single group) the difficult Norkowski "Plesn Jesuena," of changing mood, Brahms' "Wie Melodien Zient es Mir" of very difficult intervals, and the appealing Mozart "Ahi! Lo Bo," from "Maglo Fluto." Mme. de Turczynowicz gave a very charming explanation of it.

The violinist, Gilbert Margison, proved so popular in his two numbers that an encore would have been welcome. A very quiet and individual tone and lovely intonation made the Grieg "An den Fruhlings" delightful, although slightly too distant in style. The greater assurance of his playing of Schubert's "Moment Musical" made it still more pleasing, and the audience applauded enthusiastically.

The accompanist, Mrs. C. C. Warn, had a particularly onerous role last evening, and filled it with artistry.

POWER AND LIGHT ARE DISCUSSED

Ladysmith City Council Considered Item in Special Session—Company's Offer Read

LADYSMITH, Oct. 2.—Acting on the recent recommendation of the electric light committee, the City Council met last night in a special session to consider the local power and light problem.

A summary of the situation finds that since the closing of the mines at Ladysmith, the electrical committee has had to make arrangements for the shipment of coal from Nainaimo. Despite appreciable concessions from the Canadian Collieries, the change has increased the cost of fuel consumption in the municipal steam generating plant by slightly \$5 per cent, an increase that practically wipes out the marginal allowance required for constructional emergencies, depreciation and replacements.

The latest offer from the Nainaimo Electric Light, Heat & Power Company was read to the council. Highlights of the contract offered the city 10,000 kilowatts per month at 40 per kilowatt, the next 10,000 at 30 and kilowatts over 20,000 per month at 20, with a standard K.V.A. charge that approximates \$2,000 per annum.

Following a short discussion of the company's proposal, the electrical committee, Aldermen Radford and Davidson, presented a recommendation that the Nainaimo Power Company be asked to make an offer on

Dean Quainton Gives Lecture at Chemainus

Chemainus, Oct. 2.—On Wednesday evening the Very Rev. Dean Quainton, of Victoria, gave a most interesting lecture in the Chemainus Hall. The hall was packed to capacity, and the lecturer's remarks were greeted with the greatest enthusiasm.

On the following evening, harvest festival was celebrated in the Church of St. Michael's and All Angels, when the Dean gave the address, which was, in some ways, a continuation of the previous evening's lecture.

The Dean took for his text, "In the Time of Adversity, Consider." The church was filled, many attending from Westholme and Crofton. Quantities of flowers, fruit and vegetables, were massed about the church, and seldom had it looked more beautiful.

At the close of the service, the congregation were invited to the Parish Hall, where a concert and social was given, and which was attended by over one hundred. Those taking part in the entertainment were, Mrs. J. Campbell, Miss E. Payne, Rev. G. Stevenson, of Ladysmith; Rev. E. O. Robinson, of Chemainus, and H. Dobinson.

A GREAT BUSINESS PERSONALITY

Wherever there are sportsmen, of whatever race, the news of the death of Sir Thomas Lipton will create interest and widespread regret that the sporting dream of his life remained unrealized. The goal he had set himself, the recapture of the America's Cup for Britain, on five occasions he made the attempt, subjecting the different yachts to the drastic conditions imposed for the race and never achieving success. In the attempt, however, he and the vessels sailed on his behalf attained a wide and wider measure of world fame, and Sir Thomas himself earned a reputation for taking defeat with resignation and no impairment of enthusiasm which stamped him as a sportsman par excellence and a game fighter against odds which, as the years elapse, appear to be insuperable.

Sir Thomas Lipton's whole career is in the nature of a romance. Born of poor Irish people he had to start life on the lowest rung of the ladder. Following the famine of 1846 his parents fled to Glasgow, but never succeeded in making more than a bare living. Sir Thomas, at an early age, despairing of success, emigrated to the United States as a steerage passenger. In New York he had to sleep in Central Park because he had not the money for a night's lodging. After a while he returned to Glasgow, set up a small shop, went to Ireland and at a fair bought up a quantity of butter, to do which he had to pawn a watch to make up the amount for the transaction that, to him, was a very large one at the time. His small beginning proved a success. He opened other shops in other cities. He commenced to advertise widely and boldly. He covered the walls of London with pictures of the gigantic pigs he was importing from Ireland and was about to distribute among the breakfast tables of Britain. He went from success to success, until his name became a household word.

Sir Thomas, from his beginnings, was an extraordinarily bright business man. In fact, he was a born trader, and his keen appreciation of the value of money, acquired by his Ulster birth, was sharpened by his education in Glasgow. He bought his goods at fair prices, sold them at a small profit, but at prices which contrasted very favorably with those charged by his business rivals. In twenty years, after starting as a penniless trader, he became a millionaire. During that period of his life he was immersed wholly in the business which was making him a fortune. He worked, indeed, from eight or nine in the morning, and every morning, until eight o'clock in the evening. He did not go to theatres; he did not dine out; in fact, he knew practically nobody in London and never visited anybody.

When his success became beyond peradventure London woke up to the fact that there was a new name in the powerful business personality. Then the attempt was made to take Sir Thomas to its heart. For a long time he resisted all blandishments. He continued to work as hard as ever and to know neither the theatre nor society. Then he was appealed to on his softest side—his love of the poor. The jubilee of Queen Alexandra's arrival in Britain was celebrated, among other ways, by all kinds of festivities for the poor. Sir Thomas was induced to take a hand. He contributed £100,000 to one of the charities in which the Queen was particularly interested. From then on he was plunged, in society, and, with his Irish facility for adaptation, he displayed remarkable social tact and ease and won respect in all quarters.

Soon afterwards Sir Thomas determined to divorce himself from his business cares. He launched his enterprise on the stock market, and the result was a curious boom as has ever been known. People of all classes sought allotments. Sir Thomas forgot none of his old friends. He saw they secured an interest in the business, and many of them were able to make 100 per cent profit. It was a boom that pleased everyone—the stockbroker, the jobber and the general public. It was after this that Sir Thomas became the great yachtsman. Soon his boats were seen at every great regatta in Europe. He also became a globe-trotter. The most successful and daring of all his enterprises was that of recognizing the possibilities of Ceylon as a tea centre. In competition with a long-established trade in this commodity he brought to his shops a gigantic business in tea.

Of the great business personality who has now gone to the beyond the late Mr. T. P. O'Connor once wrote: "He has courage, cheerfulness, and tact, the right word for the right man in every instance, not a single observation, even by chance, and in the most hurried interview, that could wound any susceptibilities. Those are the things which reveal what native intelligence this child of humble Irish parents and this lifelong business man, who once achieved on the bench of a public park, received from nature. I know nothing which encourages an Irishman's faith more in the boundless possibilities of the men of his race, than when their quick intelligence, their adaptability, their social gifts get a proper chance of developing and revealing themselves." Sir Thomas was the Irishman always, though his fortune was made in Britain. Even in his quest for the America's Cup he said himself: "I want to bring back that cup in an Irish boat with an Irish name, and to sail in Irish waters, and so to do something for Old Ireland."

CAPITALISTIC COMMUNISM

Russia, after a trial of some fourteen years along other lines, has returned to the system of capitalism. Comrade Levine, of the Communist Party of Finance, announces the Soviet Government hereafter will stimulate the initiative of individuals and enterprises by abandoning "over-centralized financial methods." Enterprises are now again to be allowed to handle the profits arising from their operations. Under

Communism hitherto these profits have been surrendered as budget revenue. Now, under the new dispensation to which Russia has been forced, if there is to be any prospect of her Five-Year-Plan succeeding, each factory and combine can carry out constructive work and increase working capital. It can receive loans and short term credits. Comrade Levine says: "The co-operative must create their own working capital by increasing their membership shares and investments and working entirely with their own funds."

To spur on corporations in Russia to renewed economic efforts there is also a plan in operation for the distribution of honors to those who show good results. Private effort is being rewarded by the distribution of the Red Order of Merit, the Order of Lenin and the Order of the Red Flag. Moreover, individual workers and specialists are being given bonuses. The capitulation of Russia to the system which it set out to destroy with such ruthless haste and with such disregard for economic consequences is an amusing factor in the latter-day development of Communism according to the gospel of M. Stalin.

PALESTINIAN JEWRY

During the past nine years the Jewish population in Palestine has nearly doubled, according to an official statement from the High Commissioner. The total population of the country is approximately 800,000, of which the Jewish total is 175,000, that is to say a little more than one-fifth. One of the reasons for the increase in the Jewish ratio, which has become so marked in the last decade is the fecundity of the Jewish people themselves—their birth rate being thirty-three per thousand—coupled with the extraordinary care which the Jewish people take of their children. There is a chain of infant welfare and mother-craft centres in Palestine, and the hospitals are strategically placed and very good. These institutions are at the service of all races, so that Arab mothers and children can get attention equally with the Jew. Last year the number of Jews migrating into Palestine was around 2,000. Of these, about half came from Poland, 400 from Russia, 300 from Roumania, and 300 from America.

In the long run it is the countries with the greatest hoards of gold which will be the chief sufferers because of Britain's temporary abandonment of the gold standard. The United States has now over \$5,000,000,000 in gold holdings, and this is some 45 per cent of the world's stock. It does not do for any country to corner the commodity on which the world's trade is based. If trade is to flow freely in all channels and international well being is to be maintained, then a world on a gold standard must keep the metal fairly evenly distributed. If not, there must be some such happening as Britain has brought about to restore an equilibrium in currency which became deranged.

Mr. R. B. Bennett says that only one thing will save humanity and that is the Grace of God. He re-echoes the words of Mr. J. L. Garvin in *The Observer*: "We predict this time, without a shadow of hesitation, that the great awakening brought about by the double-crisis of the Budget Balance and the Trade Balance has saved the soul and the future of Britain. Let us adopt a memorable word: 'By the help of God in one year the land shall know itself.'"

Lord Lloyd says that the late British crisis was caused, not because of a world slump or an act of God, but was due to the "sublimated self-satisfaction" of the late Government. Certainly, for egotistical belief in the invincibility of their own theories, the late Labor Ministers have set a new record in how not to do it.

THUNDER SHOWER

Silver pale
Runs the path of rivulet and anall
Through the dark wood, where each brown bole
Drips magic. . . There a green nymph stole
From the old sycamore's embraces,
And there a crooked satyr hid. . .
O dim rain-shadowed places
Are your ancient gods not dead?

Now the rain
Ceases; birds are whispering again;
Sunlit, four silver swans go by
Upon a silver lake of sky. . .
And sunlight, mocking necromancy,
Shows me a crooked branch and old;
Makes my sweet nymph of fancy
A honeycuckoo, trailing gold.

CAMERON LAKE TIMBER

Sir—The unnecessary cutting and burning of beautiful, sound trees of great size that is this week going on along about three miles of the road between Cameron Lake and Alberni is filling all lovers of Vancouver Island and its natural beauty with sorrow and disgust. Owners of cars—some from California, others from Honolulu, others from Victoria—that we met passing through were loud in their denunciation of the wanton destruction of one of our assets and attractions. One owner of a large car from California had been through three years ago and was bringing others to see the very part of the road that is being despoiled. Not one of these but said that the widening of the road in this manner was unnecessary and that the cutting of trees was a waste of money. The value of the road is being destroyed by the wanton destruction of the trees. The cutting of trees is a waste of money. The value of the road is being destroyed by the wanton destruction of the trees.

FINE CAST CHOSEN FOR SHRINE PLAY

The committee in charge of the forthcoming production of "The Beauty Shop," which is being presented under the auspices of Gizeh Temple Shrine, are highly pleased with the manner in which rehearsals have begun, each one of the big cast and chorus of more than seventy-five seeming to sense the opportunities offered in this clever comedy of George M. Cohan's and entering into the work with vim and enthusiasm seldom displayed in similar affairs.

The sixteen principal speaking and singing parts have been placed in capable and experienced hands, and the chorus and dancing ensembles are selected from several of the leading musical organizations of the city and promises to be far superior to the usual run of musical comedy choruses.

Three performances will be given on the evenings of October 21, 22 and 23 in the Shrine auditorium.

CLIVE BROOK IN THRILLING STORY

Fine Supporting Cast in "Silence,"
Dominion Melodrama Starting
Today for Three Days

"Silence," which a few years ago thrilled Broadway audiences on the stage, has been brought to the screen by Paramount under the direction of Max Reinhardt, its author, and Louis Gasnier, and will show at the Dominion Theatre for three days, beginning today.

The thrilling melodrama which has stood the test of time has been filmed with Clive Brook playing the role which H. B. Warner made famous on the stage. Marjorie Rambeau and Peggy Shannon have the chief feminine parts, and handsome Charles Starrett, who played opposite Miriam Hopkins in "Fast and Loose," carries the juvenile role.

Clive Brook plays the central character of the crook, and flaming-haired Peggy Shannon, who made her screen debut in "The Secret Call," plays two roles in "Silence." She is seen as the wife and daughter of Clive Brook, but the two characters never meet in the story action. The plot covers a period of twenty years, the early sequences going to the pre-war days of hobbles skirts, embryo automobiles and beer gardens for their action.

POLYNESIANS ARE COLISEUM STARS

Natives of South Pacific Islands
Play Principal Roles
in "Tabu"

Polynesians are the principal and supporting actors in "Tabu," the romantic drama of the South Seas at the Coliseum Theatre. This picture is the result of fourteen months' work in the islands of the Society group, in the South Pacific, some 300 miles from Tahiti. Most of the film was taken on Bora Bora, a small but beautiful mountain island which rises gracefully from the azure bosom of the broad Pacific.

The natives of these islands are of the Polynesian race—fair-skinned, dark-haired people who are akin to the Hawaiians. Two of them, Matahi and Reri, a handsome youth and a beautiful maiden, were selected as the hero and heroine of the production. When one considers that they knew nothing of the art of acting before F. W. Murnau, the film's director, discovered them, it is more than surprising that they were able to perceive the heights of skill to which they ascend in this amazing picture of a virtual "paradise lost and a paradise found."

Galsworthy Play Coming on Tour

When Lady George Chomondeley opens her forthcoming tour of Canada at Halifax on Monday, November 30, she will bring virtually two companies with her—one for plays and the other for dance programmes, ballets and special period plays with music and ballets featured.

Among the former will be "The Silver Box," by Galsworthy, and the latter will include a fourteenth century play by Rabelais. This will be the first production of the season by the Civic Repertory of Montreal.

Special costumes and scenic settings are being arranged in London for the Canadian tour, and Sir Edward Elgar and Arnold Bax are writing special music for two ballets. Lady Chomondeley will be supported by Norman Page and Aubrey Hitchins. The former has left his post as principal instructor at the Royal Academy of Dramatic Art to accompany Lady George. He is one of the best-known actors and producers in the English theatre today.

Aubrey Hitchins is a famous dancer who studied under such masters of the Imperial Russian Ballet as Cecchetti and Legat. He has been associated as a featured artist with the Fokine Ballet, with Nadejda Nokolova, prima ballerina of the Imperial Theatre at Moscow, and with Anna Pavlova on her last world tour as her partner.

LEADING ACTORS IN OPERA SCENES

Dimitri Onofrei and Bianca Saroya
Will Appear at Shrine Auditorium Tonight

"Highlights of Opera," with Dimitri Onofrei, tenor, and Bianca Saroya, soprano, leading actors of the Philadelphia Grand Opera Company, will be presented in the Shrine Auditorium this evening. In addition to presenting "Highlight" scenes from "Parsifal" and "Carmen," these talented artists, who were formerly connected with the Bucharest Grand Opera Company, will give dramatic scenes from "Massenet's Opera, "Manon," which was first produced in 1884.

En route to a convent school in Paris, Manon encounters the handsome young cavalier des Grieux in the courtyard of an inn at Amiens. The scene of the second act is their apartment in Paris, where des Grieux is writing to his father of the charms of Manon, and hoping to win his consent to their marriage. A sudden knock at the door is followed by the entrance of retainers of his father, who forcibly carry the young cavalier away. The "highlight" of this opera is the third act, the scene of which is the antechamber of the monastery of St. Sulpice. Des Grieux has gone there to become a priest. It is then that he sings his fervent song of renunciation.

PLAYHOUSE This afternoon and evening will be the last opportunity for seeing "The Isle o' Dreams," which has been the opening performance of the G. Donald Gray Stock Company at the Playhouse Theatre. There will be a performance this afternoon, commencing at 2:30 o'clock, and one this evening, commencing at 8:30 o'clock. Every evening since Monday last audiences have seen this splendid little play and it is expected two capacity audiences will be present at the theatre today.

CAPITOL When love begins to fight for a particularly interesting view of this engrossing question is said to be taken in "Rebound," the Donald Ogden Stewart stage success which has been transferred to the talking screen by RKO Pathe. "Rebound" is now showing at the Capitol Theatre.

ARTISTS TO PRESENT SHAKESPEARE'S WORKS

So much has been written and talked about Shakespeare that the great dramatist is often lost sight of under the mass of commentary which often gives the impression that Shakespeare is difficult and obscure. The fact is that the impression is so gauged by the audience for which he wrote were that Shakespeare was a full-blooded drama. Not only the stage, and only through the medium of the stage can his works be thoroughly understood and appreciated. Interest is centered in the appearance at the Shrine Auditorium on Monday, October 5, of Leslie Manners and Miss Jessica Dale-Lee, brilliant exponents of the Shakespearean drama. Not only the student and the lover of English classics, but the playgoer who has never read a word of Shakespeare will be introduced to a new world of charm and fascination.

To Delay Appointment Of Vancouver's Chief

VANCOUVER, Oct. 2 (CP).—Vancouver's police commission does not plan immediate appointment of a chief of police to replace the former incumbent, W. J. Bingham, who resigned recently, it is intimated by Acting Mayor John Bennett.

Acting Chief John Murdoch has all the powers of head of the department," said the acting mayor. "We have good reasons for our attitude."

DRIVING ERRORS ARE EXPLAINED

Fifth Talk on Traffic Regulations Given by Chief of Police Heatley

Dangerous practices in automobile driving and matters pertaining to reversing the direction of cars were dealt with in the fifth of a series of talks on traffic regulations given by Chief of Police Thomas Heatley last night.

"When riding or driving any vehicle on any highway always keep to the right of the middle line of the street," the chief declared. "When passing another vehicle, blow your motor horn to notify him of your intentions, then pass with care on his left-hand side. Remember, it is the duty of the driver of the vehicle that is being overtaken to, as soon as possible, turn out to the right and thereby allow the other vehicles to pass safely. Hogging the road is neither right nor proper. People must have consideration for others on the highway."

SLOW DRIVING

"Some motorists do not understand that although they may be traveling well within the limit of twenty miles per hour, they still may not be driving in a careful and prudent manner and can thereby be charged with driving the common danger, which is an offence of a most serious character," Chief Heatley said.

I have, on many occasions, cautioned young men who have been driving with one hand, the other arm encircled round the waist of a lady friend, at the same time holding conversation with her and paying little or no attention to their driving. Another dangerous practice, which is quite common, is overcrowding the front seat, which prevents the driver from seeing properly ahead, also from having free use of the controls. When driving in this manner you endanger the lives of not only other people on the highway, but also the passengers in the car.

TURNING IN BLOCK

"When you desire to reverse the direction of your motor car, motorcycle or bicycle, remember that the only proper and safe place to do so is at the junction of intersecting streets, and not in the centre or any portion of the block."

Another dangerous practice is cutting corners, and those guilty of this practice are endangering the life and limbs of others and, remember, there is no excuse that will cover such action. Racing between the intersections and passing over the intersections at a fairly high rate of speed, with little or no consideration for the pedestrian traffic, must discontinue.

"A practice very common on Yates Street, where a number of garages are centred, is for the motorist to drive out of the driveway clear across the street before reaching the right-hand side, instead of driving on the right-hand side until he comes to the intersection and then turning," Chief Heatley continued.

GRAVE OFFENCE

"Kindly bear in mind that to operate a car with under the influence of liquor is an offence of a very grave nature, and those found guilty are sent to prison without the option of a fine. For further information with reference as to the right of way at street intersections, I will take Section 21, Part II, of the Highway Act, which reads as follows:

"The person in charge of a vehicle upon a highway shall have the right of way over the person in charge of another vehicle approaching from the left upon an intersecting highway, and shall give the right of way to the person in charge of another vehicle approaching from the right upon an intersecting highway." But remember, the provisions of this section shall not excuse any person who does not exercise proper care at all times," concluded Chief Heatley.

DE KOVEN OPERA TO OPEN SEASON

Victoria Operatic Society Will Produce "Robin Hood" on November 27 and 28 at Royal

Reginald de Koven's "Robin Hood" is the work selected by the Victoria Operatic Society for its first production of the 1931-32 season, to take place at the Royal Victoria Theatre on Friday and Saturday, November 27 and 28.

With this announcement, made yesterday by the director, Mme. Laura de Turczynowicz, came information concerning the cast. This has already been selected. The personnel includes new names, in two instances, at least, the singers being medal winners from the last Victoria Musical Festival, while well-established favorites such as Fraser Lister, Dr. Harry Johns, Thelma Johns, Georgina Watt and Charles O'zard are also taking part in the production.

PERIOD OF PLAY

The costuming and staging will be equal to the best the society has given in the past. Miss Wanda Turczynowicz being in charge of these, and already she is busy with her designs for the dresses of villagers, maidens, foresters, archers and pedlars, in addition to those of the principals. The period of the play is the time of Richard I, one of the most picturesque in English history, and full advantage will be taken of the fact.

PERSONNEL OF CAST

The cast is as follows: Robert of Huntington (afterwards Robin Hood), Fraser Lister; Sheriff of Nottingham, Dr. Harry Johns; Sir Guy of Gloucestre, Frank Spooner; Little John, Clifford Prescott; Will Scarlet, Fred Wright; Friar Tuck, Charles O'zard; Allan a Dale, Dudley Wickett; Lady Marian Fitzwalter (afterwards Maid Marian), Thelma Johns; Dame Durdene, Georgina Watt; Annabel, Florence Gunn.

The first act takes place at Nottingham; the second at Sherwood Forest, and the third in the courtyard of the Sheriff's castle. There will be represented with historical fidelity plus the imagination of the artist. Mrs. C. C. Wain and Ted Holloway will be the accompanists. Rehearsals are now under way.

It is not only women's eyes but also men's eyes are also astonished to observe imperfections. It is just not one bit of good in thinking people do not notice. What do! Rental Nonpayment—At the meeting of the Real Estate Board yesterday, the position of the landlord in the case of delinquent tenants was discussed at some length. It was felt by several of those who addressed the meeting that it was not fair that the owner of property should be obliged to pay the rent. This was especially true in the case of a tenant who was trying to make a time like this, and while food and clothing was assured the tenant through unemployed relief and friendly help associations, the owner of the property, although he might himself be in crying need of the rentals, was often left to suffer. Some of the members felt that the law should constitute a first charge upon income.

LAST SPIKE TO
BE GOLDEN ONE

Celebrations to Mark Entry
of Great Northern Into
California

Completion of the new rail connection between the Great Northern and Western Pacific Railroads has been set for Tuesday, November 10, when the last spike, a golden one, will be driven at Belter, California. Immediately following the ceremony, the new rail link will be opened for freight traffic and the facilities of the two railroads will be put at the disposal of shippers to and from California.

The passenger service will probably be opened some time next Spring, or just as soon as the new road has been adequately prepared and ballasted for the faster service which will be necessary.

The driving of the last spike will result in a mammoth celebration, and thousands of people will gather at the little town of Belter, which sprang into existence when the new line construction started. The executives and officials of both railroads, including President Ralph Budd of the Great Northern, and H. M. Adams, of the Western Pacific, will be present and participate in the event.

Special trains will be operated from Salt Lake City, Sacramento, San Francisco, and other points, carrying those who desire to be present at what the officials of both lines designate as the last great railroad celebration which will likely be held in the West for several decades, owing to the fact that there appears to be little prospect that additional major lines will be constructed in a territory which is now adequately served by several transcontinental railroads. Executives of both railroads are now engaged in working out the details of the event, and complete announcement will be made shortly.

CLUB CABLES
ITS REGRETS

Passing of Great Yachting
Figure Recognized by
Local Amateur Sailors

When advice was received locally yesterday morning telling of the passing of the world's greatest yachtsman, Sir Thomas Lipton, the Royal Victoria Yacht Club was half-masted and a cable dispatched to the Royal Ulster Yacht Club, Belfast, addressed to the commodore which read as follows:

"The commodore, officers and members of the Royal Victoria Yacht Club send deepest regret on the death of your valued member, Sir Thomas Lipton."

Although he will be remembered for his outstanding sportsmanship for all time wherever yachtsmen are in the habit of congregating, as a patron of yachting in all its phases Sir Thomas Lipton leaves many tangible memories in the shape of cups and trophies all over the world, emblems of sailing skill which are coveted by all amateur sailors.

There are several of these trophies well known to British Columbia and Puget Sound yachtsmen, the Lipton Trophy for "R" Class boats being the cause of much friendly international rivalry. This trophy was presented to the Seattle Yacht Club for international competition. Another trophy, which the late baronet presented, on the occasion of a visit here, to the Royal Victoria Yacht Club for competition between schooner, yawl and ketch-rigged craft.

BOSTON, Oct. 2 (AP).—Two hundred longshoremen employed by the American-Hawaiian Steamship Line today joined with about 200 striking longshoremen of the Luckenbach lines, causing a tie-up of work on four steamers.

The Luckenbach Line longshoremen struck because of allegedly "too heavy" slings loads. The steamers tied up were the Iowan and Californian, of the American-Hawaiian Line, and the Susan F. Luckenbach and the J. L. Luckenbach.

FISH BOATS
GO AGROUND

Distress Signals Picked Up
But No Immediate Danger
Anticipated

LOS ANGELES, Oct. 2 (AP).—Two fishing boats, the San Salvador and the Patria, were aground on the San Bonitas Islands, 375 miles south of San Pedro, at 4:45 o'clock this morning. Distress signals were sent out by the two vessels, but were later withdrawn when it was thought that other nearby fishing boats would be able to free them.

Earlier reports which had been intercepted at coast radio stations gave rise to the report the tanker Harry F. Sinclair, Jr., was aground also. Similarity in the call letters of the Patria and the tanker resulted in the confusion. It was believed here at the Mackay Radio Station. The two grounded fishing boats carry crews of sixteen men each. They are 125-foot vessels and operate out of San Diego.

Later reports received by the Marine Exchange said the boats were in no immediate danger and that the San Salvador, after freeing itself from the rocks, had swung alongside the Patria to render assistance. Radio communication was poor and the cause of the accident could not be learned.

College Dance

The two days' hilarious humilation of the Victoria College freshmen and freshmen came to an end last evening when they became the guests of the sophomores at a delightful dance given in the college assembly hall and classrooms. The students' council, headed by the president, Kenneth Ross, and the secretary, Miss Loretta Burton, took charge of the arrangements, which made full provision for the merriest kind of entertainment beginning at 9 o'clock and ending at 1 a.m. About 250 students were present, dancing to the music of a three-piece orchestra. The reception hall was prettily decorated with flowers, and the tables in the supper-room upstairs were also artistically arranged with autumn blooms.

Churches and Their World-Wide Work

Russian Centre in Paris Aids Exiles From Native Land

Of Tragic Origin, Student Christian Movement Has United Russians of Emigration in Many Beneficent Activities

In the centre of Paris, at 10 Boulevard Montparnasse, there is a three-story house, on the gates of which is a small board bearing the two legends: "American Y.M.C.A. Russian Service" and "Russian Student Christian Movement Abroad." These two organizations aim to meet the needs of the exiles of the Russian emigration scattered all over the world.

During the day the building is occupied by the Russian correspondence school, in which thousands of Russian students from the most out-of-the-way corners of the world are taught. Here also is one of the largest publishing firms of the emigration, the Y.M.C.A. Press, which publishes Russian literature, and here, too, the offices of the secretaries of the Russian Student Christian Movement, who work with the Russian students and young people in France, Germany, Czechoslovakia, the Baltic states, Bulgaria and other countries.

RUSSIA IN PARIS
At night the building is quite transformed. The noise of the typing machines is exchanged for the ringing voices of boys and girls; religious and philosophical discussions for the adults take place; clubs assemble and there is music and song. Here children are taught the Scriptures, Russian history and Russian geography. In the many millions, many colored Paris, 10 Boulevard Montparnasse is a Russian religious and educational centre. Here is heard only Russian speech. On Saturday evenings and Sunday mornings all is quiet but for the singing of church hymns and the ritual of a church service.

The origins of the enterprises that centre here lie in a background of tragedy. In 1920 hundreds of thousands of Russians, of all ages and various social standards and of diverse professions and ideological tendencies, were forced to forsake their fatherland and seek shelter in foreign countries. After the World War, the revolution and a fratricidal civil war, the first years abroad were truly a moral and physical torture for the Russian youth of that time.

RELIGIOUS AWAKENING
The difficult position, however, had the effect of awakening among most of the exiles a deep religious feeling. The boys and girls, who had been able to continue their education in schools, had a longing, according to a writer in World's Youth, Geneva, to approach the true source of life, Christ, God's Word and the church. Thanks to the aid given by the World Student Christian Federation and by the American Y.M.C.A. various Russian students, groups and professors, organized the Russian Student Christian Movement abroad.

The task of the movement was to look after the youth outside of Russia. Its activities extended beyond students to include children and later to include the entire Russian emigration. Of these activities 10 Montparnasse is the throbbing heart and directing brain.

Among other qualifications for spiritual oversight of this vast Northern territory, Canon Sovereign's well-known skill as a mountaineer will stand him in good stead.

Burgess Bedtime Stories

A Varmint Treed

By THORNTON W. BURGESS

The coward runs, nor doth he pause to find if there be really cause.—Old Mother Nature.

The arrival of Cousin Tom with two of the dogs from the ranch at the cabin where Farmer Brown's Boy was camping with Stumpy, the old prospector, was hailed with joy, especially by the latter.

"I was just wishin' we had these Dogs," said he. "How came you happened to bring 'em along?"

"Partly for company and partly because I thought we might have a Lion hunt. I remembered that when I visited here a couple of years ago there was a Cougar hanging around here," replied Cousin Tom. "This welcome, especially to the Dogs, leads me to believe that he is still here."

"He sure is," replied Stumpy, and told of the alarm of the night before. "We'll eat and then we'll see

Sure enough, there was Puma the Mountain Lion glaring down at the dogs

If we can pick up the varmint's trail," he concluded.

So lunch was eaten rather hastily, the horses were saddled and then the footprints of the Mountain Lion had been found. The scent was somewhat faint by this time, but the dogs had been trained to hunt Mountain Lions, or Panthers, as they are frequently called, and they set to work with no urging to follow that trail. At first it was slow work, but presently they found a fresher scent, as could be told by the eagerness in their voices. The party followed as best they could.

In a little while the voices of the Dogs began to ring out steadily. "They've got him going. They've started him," said Stumpy. "I reckon he was probably laying up for the day not very far off. No-body has bothered him for a long

time, so I reckon he wouldn't be no great distance away."

"But won't he kill those Dogs?" asked Farmer Brown's Boy anxiously. "He is such a big fellow he ought to be more than a match for a couple of Dogs."

Stumpy grinned. "He could, but he won't," he replied. "These big Cats are just naturally cowards. Won't fight unless they are cornered. Reckon the barking of a Dog frightens their nerves. Besides, the critters know that where there are Dogs there are likely to be humans, and that is plumb upstairin' to one of these Cat rubbers."

It was rough country and hard riding and several times the Dogs were so far ahead that they could hardly be heard. Once they passed out of hearing completely. But Stumpy knew the country and he knew the ways of the Mountain Lion. So he led the way contentedly and presently they could once more hear the dogs. Stumpy held up his hand for the others to stop and listen.

"They've got him!" he exclaimed. "No need to hurry now. We can take our time."

"What do you mean by saying that they have got him?" asked Farmer Brown's Boy eagerly.

"Treed him. They've got the critter up a tree," replied Stumpy. "Don't you notice the difference in their voices? They are just plain barking now and right in one place."

"But will he stay up in that tree 'til we get there?" asked Farmer Brown's Boy anxiously.

"Ain't nothing goin' to induce that Cat critter to come down out of that tree with them Dogs at the foot of it no morn' a house Cat would," replied Stumpy.

So they took their time and allowed the horses to pick their way. After a while they dismounted and tied the horses. Then they made their way on foot, and so presently came in sight of the two Dogs leaping up against the trunk of a big tree and barking at it if they would bark their heads off.

"There he is," said Stumpy.

"There's the varmint way up about as high as he can get and feel comfortable."

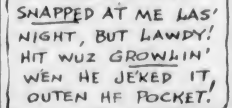

Farmer Brown's Boy looked eagerly. Sure enough, there was Puma the Mountain Lion glaring down at the Dogs and twitching his long tail in true Cat fashion.

The next story: "Puma Has His Picture Taken."

Bishop Lloyd to Preach at Cedar Hill on Oct. 11

The annual harvest thanksgiving services at St. Luke's, Cedar Hill, will be held on Friday, October 9, continuing on the Sunday following. On the Friday at 7:30 o'clock the special preacher will be the Rev. Archdeacon Gollison, a former rector of St. Luke's. On Sunday, October 11, the preacher at 11 and 7 o'clock will be the Right Rev. G. E. Lloyd, formerly Bishop of Saskatchewan. In the afternoon at 3 o'clock there will be a children's service, with an address by the rector.

What Today Means

"LHRA"
If October 3 is your birthday, the best hours for you on this date are from noon to 2:10 p.m., from 5 p.m. to 7:05 p.m., and from 9:30 p.m. to 11:15 p.m. The danger hours are from 9 a.m. to 11:50 a.m., and from 7:35 p.m. to 9:15 p.m.

A nebulous and confusing atmosphere will prevail, from an astrological viewpoint, on October 3. During the early hours there will be a feeling of listlessness and a spirit of inactivity, which means that only obligatory and routine duties should be carried out. After noon the air will begin to clear and stimulating influences will be experienced, especially in all that relates to physical effort.

Children born on this October 3 will not be very ambitious and they will not scale any great heights. They will be very much interested in themselves and will strive to create a good impression. Their strained efforts will oftentimes defeat the object that they seek. They will be rather selfish and exacting and feel "hard done by" if they fail to succeed.

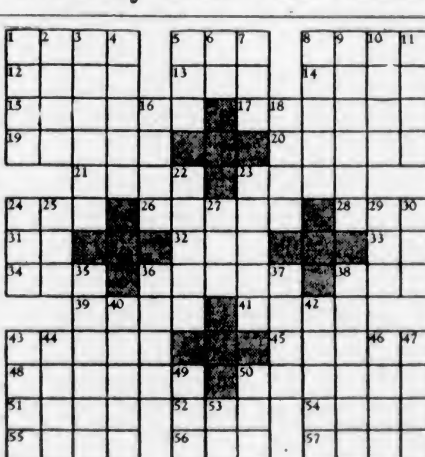

You, if born on October 3, are meticulous and ultra-prudent. If you were in-charge of a fire engine going to a fire, you would drive with so much care that, although you would avoid all ditches and collisions, you might arrive at the scene of the conflagration when the services of firemen were no longer required. Your horoscope denotes what can be considered a monotonous career, rich in opportunity but sterile in accomplishment. You are kind and sincere and extremely sympathetic. You are also psychic and impressionistic.

You have great ability in certain directions, and if genius is the faculty of taking pains, then you can be classified as such. Your many talents, however, do not promise to be exploited, owing to your inability to grasp opportunity or to assert yourself, and owing to the constant fear that your efforts might fail. You are very emotional and demonstratively affectionate, and capable of a great love. You may be, and are afraid to take a chance in all that tends to material advancement. You are not like this, however, in matters of romance. Here you know what you want and go after it and get it. Your married life holds out a great prospect of happiness, although the signs denote that affluence will not come your way.

TO ASSIST THE REX

HALIFAX, N.S., Oct. 1 (CP).—Late tonight the Government steamer Lady Laurier sailed from Halifax to assist the motor vessel Rex II, of Digby, four days out from Lunenburg for St. Pierre, reported disabled fifty miles west of Sable Island. Further signals picked up tonight identified Rex II as the vessel which sent out an SOS two days ago.
